

Khartoum Academy for Aviation  
& Technology

# Introduction

- The rapid growth in air travel in Sudan created the demand for the supply of professional Technical Staff to support this evolution.
- **KAAT** was established as a capacity to provide specialized training courses required by the Aviation Industry to fulfill the above demand in different aspects.
- All courses are designed to meet the European Aviation Safety Agency (EASA) & ICAO Standards.
- Different Aviation courses are step forward taken by (**KAAT**).

- KAAT, based in Sudan close to Khartoum Airport. Our area of expertise is in the delivery of a wide range of aviation training solutions to meet the needs of airlines and aviation organizations based in every continent of the world in collaboration with International partners.
- KAAT was established in 2004 to provide training services to the highest aviation industry standards. Our Academy is run by experienced aviation professionals with more than 20 years experience within the Safety/Aviation and Development training arena.

- Our training courses may be performed at our clients own training centers or alternatively at facilities provided by us.
- At KAAT we believe our highly skilled, professional Instructors are one of our biggest competitive advantages and are amongst the most experienced Instructors.
- All our Instructors have proven track records through working within small and major airlines, and conducting training for 3<sup>rd</sup> party companies throughout the world.

- Our management team has more than 20 years of expertise in aviation training and offers a wide range of knowledge and experience. These elements are key factors for an operational training highly appreciated by airlines.
- Our packages are implemented in close collaboration with the customer. They require a detailed study before validating.
- This represents a strong reciprocal commitment that should be taken seriously. It is with this quality of excellence that We will ensure to maximize your results and success for your high skill level training investment.

# Aircraft Maintenance Engineering

- A combination of the Airframe and Engine curriculums provide students with a theoretical and practical knowledge, as a manipulative ability to maintain an aircraft engine, structures and systems in airworthy condition, the student is repeatedly tested to insure that possesses adequate knowledge to successfully pass the CAA examinations for the Airframe, Engine and Avionics Licenses which would enable him/her to obtain an A.M.E. position in any airlines locally and internationally (EASA Part-66 Modules).

卷之三

The logo of the Egyptian Ministry of Higher Education features a circular emblem. Inside the circle, the Arabic word 'وزير التعليم العالي' (Minister of Higher Education) is written at the top, and 'جامعة مصر' (Cairo University) is written at the bottom. In the center of the circle, the name 'جامعة القاهرة' (Cairo University) is written in a larger, stylized font. The entire emblem is set against a background of horizontal lines.
